*Other releases include additional handcrafted NativeStone™ products and new copper trough collection*

**January 20, 2015 - SAN LUIS OBISPO, CALIF.** – Native Trails, the eco-chic California company known the world over for its magnificent artisan-made kitchen and bath products, will feature new products, including a Carrara marble inset bathroom vanity added to its Cuzco vanity line, several new NativeStone sink designs, and a new copper trough collection at this year's KBIS Las Vegas show (booth #N3077) Jan. 20-22, 2015.

### Cuzco Collection

The Cuzco Collection includes vanities, a linen tower, and complementary mirrors. Vanities and Linen Tower are made of forged iron, with insets in multiple finishes, including hammered copper, brushed nickel, and new for 2015, Carrara marble. On trend with today's larger master baths, Cuzco vanities come in widths up to 72", becoming a beautiful focal point in the home. Both the 60" and 72" vanities feature two push-to-open drawers. The linen tower features a push-to-open drawer and cabinet, providing ample bathroom storage, while three open shelves provide display space.
