## Native Trails Designs Two NativeStone® Bathroom Sinks With Multiple Mounting Options

*Arriving in showrooms June 1, Nipomo and Tolosa are the newest members of the company's NativeStone Bath Collection*

**SAN LUIS OBISPO, CALIF. (Jan. 1, 2016)** – [Native Trails](#), the eco-chic company renowned for its luxurious artisan-made kitchen, bath and lifestyle products, has announced two new NativeStone bathroom sinks, Nipomo and Tolosa. Each sink features multiple mounting options, which homeowners and design experts have identified as a huge advantage.

“Our new bath sink designs bring fresh versatility in their styling,” said Naomi Neilson Howard, founder and CEO of Native Trails. “Nipomo and Tolosa are really like three sinks in one. The fun part for customers will be deciding how to mount them.”

**Nipomo:** This sink is a powerhouse of versatility and perfect for today's clean design styles. Its soft rectangular shape shows off the organic beauty of concrete, at a much lighter weight and with no-fuss maintenance. To achieve a homeowner's desired look, Nipomo can be installed as an apron-front sink, undermount sink or vessel sink.

Nipomo is priced at \$598 and available in Ash, Slate and Pearl finishes. (Dimensions: OD 19.5" X 15" X 4.5" | IN 17" X 13" X 4"). Available in showrooms June 1, 2016.

**Tolosa:** This oval-shaped bathroom sink ups the ante with its smooth surface and elegant design. To achieve a homeowner's desired look, Tolosa can be installed as an apron-front sink, undermount sink, or a drop-in sink.

Tolosa is priced at \$528 and available in Ash, Slate and Pearl finishes. (Dimensions: OD 19.5" X 15.5" X 4.75" | IN 17" X 14" X 4"). Available in showrooms June 1, 2016.

Native Trails' [NativeStone](#) is made from an innovative mixture of jute fiber and cement. NativeStone weighs approximately 40 percent less than standard concrete. Its exclusive nanosealer renders it highly stain resistant, which homeowners have identified as a huge advantage over other concrete sinks. The available finishes are perfect for today's designers, with ash and slate in the warmer grey family, while pearl features a lighter hue that answers the call for a more traditional white tone.

NativeStone sinks are handcrafted using contemporary craft techniques. Artisans hand form, polish, finish, and seal each individual sink. To learn more about Native Trails and its latest NativeStone additions for the bath, please visit <http://www.nativetrails.net/nativestone/>.

### **About Native Trails**

[Native Trails](#), now celebrating its 20<sup>th</sup> anniversary, is the premier source for luxury functional art in the kitchen, bath and home. Offering inspired design, Native Trails is best known for hand-hammered, recycled copper sinks and bathtubs. Its artisan-made product lines have grown to include groundbreaking NativeStone® concrete sinks, vanities made of reclaimed and FSC-certified woods, range hoods, furniture, and a range of home decor products.

Headquartered in San Luis Obispo, Calif., Naomi Neilson Howard founded Native Trails in 1996 and serves as the company's chief visionary and CEO. The company ships its award-winning, sustainable products to more than 1,300 showrooms across the U.S. and Canada, while its

global website ([NativeTrails.net](http://NativeTrails.net)) offers sales beyond North America. Select pieces have also been featured in several television series, including the last two seasons of the popular HGTV and W Network show, Property Brothers.

For further information, contact Native Trails at (800) 786-0862 or visit the company on [Twitter](#), [Facebook](#), [Pinterest](#) and [Houzz](#).
