bath

19. Palomar Vanity Top with Integral Sink

» *Native Trails*

Among the many reasons to love an integrated sink in the bath—seamless construction, easy installation, quick cleaning—we found one more in this version. Made from a blend of cement and jute fiber, it's 40 percent lighter than standard concrete and just as durable. Available in two finishes: Ash and Slate. From \$945; nativetrails.net

A matte finish keeps concrete counters looking clean.
