

LUXURY GUIDE

FOR HOSPITALITY & FINE RESIDENTIAL PROJECTS

800.786.0862 | HOSPITALITY@NATIVETRAILSHOME.COM | [NATIVETRAILSHOME.COM](https://www.nativetrailshome.com)

I founded Native Trails with a dream of bridging cultures, of combining artisan heritage with innovative design and sustainable materials. Bringing the stunning work of undiscovered artisans to beautiful interiors all over the world is a passion I gratefully live out every day."

Naomi Neilson, Founder/CEO

Now celebrating over 20 years, Native Trails joyfully creates inspiring products that combine artisan craftsmanship with natural, sustainable materials, enriching people's lives and enhancing their spaces.

One of a Kind; Large-Scale Availability. Native Trails has unique expertise in producing one-of-a-kind, handcrafted products – with large-scale availability. By celebrating the artisans whose skill and expertise are unparalleled and using high-quality, sustainable materials that meet carefully balanced criteria, Native Trails creations are thoughtfully crafted and designed to stand the test of time.

A journey of discovery

COMMITTED TO CRAFTSMANSHIP

Each copper sink and tub comes to life through thousands of hammer strikes by skilled coppersmiths. Artisans hand form, polish, finish and seal our concrete sinks and tubs using contemporary craft techniques. Each bath vanity is built to last, handmade by artisans who employ age-old traditions and craftsmanship.

RESPECT FOR THE ENVIRONMENT

Native Trails' high quality fixtures and furnishings for the kitchen and bath make a grand visual impression with a small ecological footprint. Artisans around the world handcraft each inspiring kitchen and bath product from natural, eco-friendly materials such as sustainably-made concrete, recycled copper and reclaimed wood.

POSITIVE SOCIAL IMPACT

Founded over two decades ago on the principles of the triple bottom line (people, planet, profit), Native Trails' views on sustainability are as much about community impact as they are about preserving the environment. As champions of indigenous people and fair practices, every product is designed to support equitable working relationships and to have a positive, real impact on our artisans and their families.

NATIVE TRAILS IS A CERTIFIED B CORPORATION

NATURAL AND SUSTAINABLE MATERIALS

Natural and eco-friendly materials indulge the senses, imparting detail, texture, and organic beauty.

COPPER

Native Trails hand hammered copper combines age-old artisan tradition with sustainable materials and sophisticated, functional design. Every copper product is made of 100% recycled copper, hammered and crafted by expert artisans. It is refreshingly easy to maintain with simple soap and water. Copper's unique qualities go beyond its aesthetic appeal; it has antimicrobial properties that provide a cleaner environment for the kitchen and bath.

NICKEL

Native Trails Brushed and Polished Nickel products start out as a high-quality recycled copper product, which is carefully prepped and plated using a state-of-the-art plating process. More luxurious and eye-catching than stainless steel, these hammered finishes are the ultimate upgrade – truly a wow-inducing look that will endure the test of time.

NATIVESTONE®

This breakthrough combination of natural jute fiber and cement results in a material about 40% lighter than standard concrete. With an advanced nano-sealing process, NativeStone is stain and scratch resistant, making concrete as practical as porcelain, yet with far more durability and character.

RECLAIMED WOOD

Time-worn buildings, fences, and wine-making materials get a luxe second life in bathroom furniture and mirrors. Often deeply textured and distinguished by visible wear marks and nail holes, reclaimed wood has an authentic story to tell, and does so beautifully.

PARK LANE ALA MOANA

HONOLULU, HI

RESIDENTIAL

Native Trails' polished nickel sinks were hand-sourced by the designers specifically to fit the design aesthetic of timeless quality.

Each Park Lane bespoke floor plan presents a different island view to its owners, yet all residences retain an air of gracious elegance and Hawaii sense of place, grounded in the foundation of family life and the spirit of community.

DELLA TERRA MOUNTAIN CHATEAU

ESTES PARK, CO
HOSPITALITY

Della Terra Suites embody romantic luxury, with water features and see-through fireplaces. Aurora soaking tubs were selected specifically to paint a picture for romance. Native Trails' lavatory basins, bar sinks, and kitchen sinks all lend to the rustic charm of the Chateau.

Della Terra Mountain Chateau is known as one of Colorado's most romantic luxury boutique inns. At the end of a twisting road, Della Terra suddenly rises up before you, breathtakingly suspended, majestic, solid, yet magical.

**RITZ-CARLTON SPA, KAPALUA**

MAUI, HI

HOSPITALITY

"The existing glass sinks were breaking due to hot stones used during massages. Ritz Carlton replaced all the sinks with the Maestro Sonata, which are a great fit for their needs."

~ Jaime Caron,
Hawaii Pacific Plumbing

One of the most luxurious spas on Maui, this well-appointed 17,500-square-foot spa offers private outdoor gardens and private couples' cabanas. Treatments and therapies offered are based on native Hawaiian healing traditions and the potent plants, flowers, fruits and herbs abundant in Hawaii.
