Hospitality & Residential Projects

“

I founded Native Trails with a dream of bridging cultures, of combining artisan heritage with innovative design and sustainable materials. Bringing the work of undiscovered artisans into extraordinary spaces is a passion I gratefully live out every day.”

Naomi Neilson, Founder/CEO

ONE OF A KIND

LARGE-SCALE AVAILABILITY

Native Trails offers hand crafted one-of-a-kind luxury — with the capability and expertise to deliver at scale. By celebrating the artisans whose mastery is rooted in generations of tradition, and by prioritizing sustainable materials, Native Trails creates collections that not only elevate the built environment, but offer ADA-compliant solutions while meeting the high performance and durability demands of premier hotels, resorts, restaurants, and luxury residential design.

Using business as a force for good

TAILORED CRAFTSMANSHIP SCALED FOR SIGNATURE SPACES

Custom capabilities, handcrafted excellence. Our custom program enables design flexibility — adjusting size, shape, or finish — while maintaining the artisan integrity and sustainable practices at the core of every Native Trails piece.

Each custom item is handcrafted by skilled artisans and made to order with careful attention to consistency, quality, and application-specific needs.

COLLECTIONS WITH SOUL CRAFTED TO ENDURE

From sustainably sourced wood to recycled metals and innovative concrete blends, our materials are chosen with care, shaped by hand, and built for beauty that lasts.

NATIVESTONE®

Concrete Done Better. NativeStone® is handcrafted from a sustainable blend of cement and natural jute fiber—making it 40% lighter than standard concrete. Its advanced nano-sealing ensures exceptional stain and scratch resistance, ideal for luxury hospitality bathrooms and spa environments.

MURANO COLLECTION

Handcrafted Italian Glass. The Murano Collection showcases the mastery of Italian glassmakers who mold, spin, and color molten glass by hand. Each sink is one-of-a-kind and highly durable—an exquisite blend of art and function.

FURNITURE

Sustainable Craft, Built to Last. Each bath vanity and mirror is handmade from reclaimed wood rich with texture or FSC-certified wood crafted with care. Built by skilled artisans, these pieces bring warmth, sustainability, and enduring quality to any environment.

PRECIOUS METALS

Luxury from Umbria. Italian artisans hand-glaze fine fireclay with genuine 24k gold, platinum, or silver. Each sink is triple kiln-fired for brilliance and sealed for durability. With rich finishes and elegant lines, they bring unmatched craftsmanship to spaces seeking unforgettable design.

COPPER

Artistry. Sustainability. Native Trails hand-hammered copper unites age-old artisan tradition with sustainable materials and functional design. Made from 100% recycled copper, each piece takes thousands of hammer strikes to create. Naturally antimicrobial and easy to maintain, copper delivers warmth, durability, and a handcrafted story perfect for hospitality spaces seeking lasting impact.

NICKEL

Enduring Beauty. Our Brushed and Polished Nickel products start with recycled copper, meticulously plated using state-of-the-art technology. More luxurious than stainless steel, these hammered finishes deliver a wow-worthy look that lasts. Perfect for high-traffic hospitality spaces where durability meets upscale design.

Project Spotlight

WAILEA BEACH RESORT, MARRIOTT, MAUI

WAILEA, HI
HOSPITALITY

Overlooking Maui's golden shores, the Wailea Beach Resort by Marriott blends modern luxury with the soulful heritage of the islands. In select spa suites, the Native Trails Avalon soaking tub in Slate introduces an elemental focal point—its smooth curves and natural concrete finish inviting deep relaxation. Crafted by hand from NativeStone®, the tub delivers concrete's aesthetic at a reduced weight, aligning with the resort's commitment to sustainable, high-performance design.

ANANTARA SIR BANI YAS ISLAND AL SAHEL VILLA RESORT

ABU DHABI, UAE
HOSPITALITY

A leading eco-luxury destination in the Arabian Wildlife Park, Anantara Al Sahel offers a rare glimpse into nature with over 10,000 free-roaming animals. In each private villa, the Aurora soaking tub stands as a sculptural centerpiece—blending artisan craftsmanship with the resort's commitment to sustainability and serenity.

RITZ-CARLTON SPA, KAPALUA

MAUI, HI
HOSPITALITY

"The existing glass sinks were breaking due to hot stones used during massages. Ritz Carlton replaced all the sinks with the Maestro Sonata, which are a great fit for their needs."

~ Jaime Caron, Hawaii Pacific Plumbing

One of Maui's most exclusive wellness destinations, this 17,500-square-foot spa draws on native Hawaiian healing traditions and the potent natural resources of the island. The Maestro Sonata sink in Brushed Nickel was selected to replace delicate glass basins, offering lasting durability and hand-hammered elegance.
