## BATHING BEAUTIES

*Few things are more blissfully indulgent than a long soak at the end of a busy day. From modern to traditional, today's freestanding tubs are designed with lingering in mind.*

This handcrafted tub is made from a combination of natural jute fiber and cement so it is much lighter than a standard concrete tub. Thick walls provide insulation to ensure the water retains heat for as long you care to soak. **Avalon 62 in Ash** (\$7,990). Native Trails; [nativetrailshome.com](http://nativetrailshome.com)

A gentle incline makes this modern design ideal for homeowners who love to read—or scroll—in the tub. **LAB** by Pierre Bélanger (starts at \$5,400). **WETSTYLE**; [wetstyle.com](http://wetstyle.com)

MANY TUBS ARE AVAILABLE IN BOTH STANDARD AND PETITE SIZES TO ACCOMMODATE SMALLER BATHS.

With its old-world allure and shiny copper finish, this stunner is sure to turn heads. **Clothilde Freestanding Oval Copper Bathtub** (\$49,157). **Waterworks**; [waterworks.com](http://waterworks.com)

Whisper+ Technology dramatically reduces vibration and noise for a restful soak. **Modena Freestanding Whirlpool Bath** (starts at \$5,420). **Jacuzzi Luxury Bath**; [jacuzzi.com](http://jacuzzi.com)

Add a little romance with a vintage-look claw-foot tub made of enameled cast iron. **Artifacts Freestanding Bath with Claw Feet** (bath starts at \$4,499; feet at \$750). **Kohler**; [kohler.com](http://kohler.com)
