# HOME FRONT

THE MOST SERENE ABODES TO SNATCH UP NOW

## Lido

Soft curves and a shallow depth make the Lido sink the perfect accent to any modern bathroom.

## Amalfi

Add a ribbed texture to your bathroom with this asymmetrical, molten glass vessel. Resembling a seashell, each sink is poured by hand—meaning no two are alike.

## Verona

The most classic of the bunch, the Verona is a symmetrical, round sink that complements a contemporary, clean style.

## Sorrento

The 20-inch-wide bowl has elevated edges that mirror the movement of the Mediterranean waves—bringing a spa-like aesthetic to your bathroom appearance.

## Positano

Available in Abalone, Abyss and Bianco finishes, the cylindrical-shaped bowl features crisp, classic lines.

# GRAND VESSELS

The new Murano collection from Native Trails provides a visual punch to any bathroom.

By Antonia DePace

If bathroom design is an opportunity to extend a home's aesthetic and make several unexpected statements, sinks are opportunities to add exclamation marks. Which is why we love the release of the Murano collection from Native Trails ([nativetrailshomes.com](http://nativetrailshomes.com)), featuring handcrafted sinks by Italian glass-makers. Inspired by the Italian coastline, the stunning vessels add functional art to any *salle de bain* in a variety of colors and patterns, and are available in 60 showrooms across Massachusetts, including F.W. Webb ([fwwebb.com](http://fwwebb.com)) and Portland Group ([theportlandgroup.com](http://theportlandgroup.com)). Here, we showcase some of our favorites.
